"GRAND CHAMPION"™ UPRIGHT

1. GAME SET-UP

A. INTRODUCTION

"GRAND CHAMPION"™ Upright Driving game Manufactured by Taito America Corporation and designed for one or two players.

The object of the game is to avoid the opposing cars. The player has to drive through Dark Tunnels, Rain, Lightning, Sleet, Snow, and a Track that suddenly divides to get to the Finish Line first.

"GRAND CHAMPION"™ has a Radar Feature which enables the Player to see his position relative to the other cars.

A Rank Feature is also provided which shows the Players numerical rank all through the Race.

The Speech Feature enhances the game play.

B. PRE-GAME INSTALLATION

"Grand Champion"™ Upright game is shipped with the Dash Panel separate. To Install the Dash Panel follow the Instructions lists in Section 1 Cover Glass Removal & Dash Panel Installation.

C. GAME INSPECTION

TAITO AMERICA'S CORPORATION'S "GRAND CHAMPION"™ Upright game is shipped with the Dash Panel separate. After completing the installation of the Dash Panel (Section 1) a careful visual inspection should be made to insure your game is in perfect condition. Please verify the following before turning the game on.

- * Check the exterior of the game for shipping damage, chips, dents and broken parts.
- * Open the Service Door and examine the following:
 - * Plug-in connectors to make sure they are firmly seated.
 - * Speaker.
 - * Player controls, Steering Wheel and Accelerator.
 - * Printed circuit boards making sure there is no damage to the components.
 - * Check for loose foreign objects, especially metal objects which may cause electrical problems.
 - * Fuses, making sure they are firmly seated in the holders.
 - * Coin Mechanisms

The Video Monitor is properly adjusted before shipping. If there are any adjustments necessary refer to our Video Monitor Manual (72-00003-001).

If problems occur or technical assistance is required, contact our Customer Service Department HOT LINE Toll Free 800-323-0666 (except Illinois). Illinois phone 312 981-1000 X215.

POWER REQUIREMENTS

TAITO AMERICA CORPORATION'S "GRAND CHAMPION"™ Upright game is shipped ready for operation at 120VAC, 60Hz with a power consumption of approximately 250 Watts.

CAUTION

For safe operation it is recommended the cabinet be grounded. This game is equipped with a three conductor power cable. The third conductor is the ground conductor and when the cable is plugged into an appropriate receptable, the game is grounded. The offset pin on the power cable's three-prong connector is the ground connection.

LOCATION SPACE REQUIREMENTS

Depth - 35" (87.5cm)
Width - 24" (61cm)
Height - 68" (171cm)
Weight - 300 lbs.
(Packaged Weight)

D. GAME INSTALLATION

The following precautions should be followed when installing the game.

- * Avoid rough handling of the game, the picture tube is fragile.
- * Install the game on a level surface.
- * Avoid installing the game where it may receive excessive sunlight or heat, to prevent the game from rising internal temperature.
- * Do not install in a damp dusty location.
- * For a short time after connecting the power to the game, the picture may be temporarily distorted.

E. OPTION SWITCHES AND VOLUME CONTROL SETTINGS

TAITO AMERICA CORPORATION'S "GRAND CHAMPION"™ Upright game provides the following option switches. See Figure 1 and 2. These Switches can be found on the CPU Board (88100).

OPTION SWITCHES FIGURE 1

OPTION SWITCH LOCATION FIGURE 2

DIP SWITCH (A) is used for adjusting the play pricing listed below.

PLAY PRICING	#1 COIN SLOT (LEFT)				#2 COIN SLOT (RIGHT)			
	1	2	3	4	5	6	7	8
1 Coin - 1 Play	ON	ON	ON	ON	ON	ON	ON	ON
1 Coin - 2 Plays	OFF	ON	ON	ON	OFF	ON	ON	ON
1 Coin - 3 Plays	ON	OFF	ON	ON	ON	OFF	ON	ON
1 Coin - 4 Plays	OFF	OFF	ON	ON	OFF	OFF	ON	ON
1 Coin - 5 Plays	ON	ON	OFF	ON	ON	ON	OFF	ON
1 Coin - 6 Plays	OFF	ON	OFF	ON	OFF	ON	OFF	ON
1 Coin - 7 Plays	ON	OFF	OFF	ON	ON	OFF	OFF	ON
1 Coin - 8 Plays	OFF	OFF	OFF	ON	OFF	OFF	OFF	ON
2 Coins - 1 Play	ON	ON	ON	OFF	ON	ON	ON	OFF
3 Coins - 1 Play	OFF	ON	ON	OFF	OFF	ON	ON	OFF
4 Coins - 1 Play	ON	OFF	ON	OFF	ON	OFF	ON	OFF
5 Coins - 1 Play	OFF	OFF	ON	OFF	OFF	OFF	ON	OFF
6 Coins - 1 Play	ON	ON	OFF	OFF	ON	ON	OFF	OFF
7 Coins - 1 Play	OFF	ON	OFF	OFF	OFF	OFF	OFF	ON
8 Coins - 1 Play	ON	OFF	OFF	OFF	ON	OFF	OFF	OFF
9 Coins - 1 Play	OFF	OFF	OFF	OFF	OFF	OFF	OFF	OFF

NOTE: Two coin input signals from the above #1 and #2 coin slots will increase credits independently. For instance, no credit is made, when each one coin is inserted into the above #1 and #2 coin slots in case of 2 coins - 1 Play setting.

DIP SWITCH B IS USED FOR THE FOLLOWING

Switches 1 and 2 are used for ranking for the next free play. If the player is ranked at the order shown in the right column, he is given an extra free race.

RACE	SWITCHES	
	1	2
4th	ON	ON
5th	OFF	ON
6th	ON	OFF
7th	OFF	OFF

These Switches are factory set for the 5th race.

Switch 3 is not used and should remain in the OFF position.

Switch 4 is used for the RAM test.

ON	No Test
OFF	Test

Switch 5 is used for the COIN SYSTEM.

1 WAY	ON
2 WAY	OFF

Switch 6 is used for the display of "1981".

DISPLAY	ON
NO DISPLAY	OFF

Switch 7 is used for the Score Display.

NO DISPLAY	ON
DISPLAY	OFF

VOLUME CONTROL SETTING

The Volume Control Setting can be found on the CPU Board. Volume increases when the potentiometer is turned as indicated in Figure 3.

VOLUME CONTROL FIGURE 3

VOLUME CONTROL LOCATION FIGURE 4

SERVICE SWITCH & HIGH SCORE RESET

The Service Switch & High Score Reset Switch is located on the Coin Door Frame.

SERVICE SWITCH & HIGH SCORE RESET
FIGURE 5

COVER GLASS REMOVAL & DASH PANEL INSTALLATION

To remove the Cover Glass the following steps should be followed.

Cover Glass

- While holding the Cover Glass remove the three screws from the Cover Glass Bracket.
- Remove the bracket and lift the glass outward.

Dash Panel

To Install Dash Panel follow the steps listed below.

- Remove two bolts from Dash Panel.
- Disconnect Dash Panel Harness Connector.
- Release clamps and lift panel out.

COVER GLASS REMOVAL & DASH PANEL
FIGURE 6

2. MAINTENANCE

All games require a certain amount of maintenance to keep them in good condition. A periodic check of mechanical controls would be beneficial to guarantee your game will be profitable.

A. CLEANING

The exterior of the game, all metal parts and all plastic parts can be cleaned with a non-abrasive cleanser. Caution should be used when cleaning the plastic, a dry cloth can cause scratches and result in a foggy appearance.

B. FUSE REPLACEMENT

This game uses 5 fuses, 4 are located on the Power Supply itself. See Figures 7 and 8 for fuse sizes and location.

FUSE REPLACEMENT FIGURE 7

POWER SUPPLY FIGURE 8

C. VIDEO MONITOR REMOVAL

If you need to remove the Video Monitor, follow the instructions listed below:

CAUTION

It is recommended the game be left disconnected for at least one hour before removing the Video Monitor. This will probably discharge the Video Tube but **EXTREME CAUTION** is still necessary.

1. Disconnect power from the line voltage. (Not shown on Figure 9).
2. Disconnect the Monitor cable connector.
3. Remove the wire cable clamp. (Not shown on Figure 9).
4. Take out the two side bolts, one on each side of the cabinet.
5. Remove the (4) four mounting bolts and disconnect the green ground wire.
6. Slide the Monitor out by pulling the monitor toward you.

CAUTION

Use **EXTREME CAUTION** and do not touch electrical parts of the Monitor Yoke area with your hands or with any metal object in your hands! High voltages may exist in any Monitor, even with power disconnected.

VIDEO MONITOR REMOVAL FIGURE 9

The Monitors purity is affected by the earth's magnetic field, causing a variation of color. By turning the game ON for 10 or 15 seconds and OFF for 20 to 30 minutes the automatic degaussing circuit applies as degaussing field around the edges of the monitor, doing this several times will correct the problem.

Another way to correct this problem is to purchase a bulk tape eraser at any Electronic Store, this will help to immediately demagnetize the Video Tube.

If you move the game to another location after degaussing the problem may reappear. Refer to Monitor Manual (72-00003-001) for further details.

D. VIDEO MONITOR ADJUSTMENTS

TAITO AMERICA CORPORATION presently uses either a Wells-Gardner Corporation or Electrohome 19" color Video Monitor in the "GRAND CHAMPION"™ upright game. Refer to the Monitor Manual (72-00003-001) for your specific Video Monitor. Be sure to heed all the **WARNINGS** and **CAUTION INSTRUCTIONS** provided before repairing or replacing your Video Monitor.

E. FLUORESCENT TUBE REPLACEMENT

CAUTION

If you drop a fluorescent tube and it breaks, it will **EXPLODE!** PLEASE USE CARE WHEN REPLACING.

- * Remove the three screws from the Marquee bracket, being sure to hold the glass while removing the screws.
- * Remove the Marquee Glass and the fluorescent bulb is accessible.
- * With both hands turn the bulb toward you, carefully pull the lamp out of the lamp socket.

F. PRINTED CIRCUIT BOARD REPLACEMENT

PRINTED CIRCUIT BOARD MOUNTING ASSEMBLY FIGURE 10

Remove side & top Mounting bracket. Remove boards by pushing back & up to slide the board set out.

WARNING

This equipment generates, uses, and can radiate radio frequency energy and if not installed and used in accordance with the Instruction Manual, may cause interference to radio communications. As temporarily permitted by Regulation it has not been tested for compliance pursuant to Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference. Operation of this equipment in a residential area is likely to cause interference in which case the user at his own expense will be required to take whatever measures may be required to correct the interference.
